Contents

VOLUME 23, NUMBER 1, FEBRUARY 1998
Published 12 February 1998

WOLF U. BLANCKENHORN
Altitudinal differentiation in the diapause response of two species of dung flies 1–8

SIMON BLANFORD, MATTHEW B. THOMAS and JÜRGEN LANGEWALD
Behavioural fever in the Senegalese grasshopper, *Oedaleus senegalensis*, and its implications for biological control using pathogens 9–14

ROB BONSER, PHILIP J. WRIGHT, SIMON BAMENT and UCHEGBU O. CHUKWU
Optimal patch use by foraging workers of *Lasius fuliginosus*, *L. niger* and *Myrmica ruginodis* 15–21

NICOLE M. VAN DAM and J. DANIEL HARE
Differences in distribution and performance of two sap-sucking herbivores on glandular and non-glandular *Datura wrightii* 22–32

MICHAEL J. COSTELLO and KENT M. DAANE
Influence of ground cover on spider populations in a table grape vineyard 33–40

WADE Hazel, SANDRA ANTE and BEN STRINGFELLOW
The evolution of environmentally-cued pupal colour in swallowtail butterflies: natural selection for pupation site and pupal colour 41–44

G. J. MASTERS, V. K. BROWN, I. P. CLARKE, J. B. WHITTAKER and J. A. HOLLIER
Direct and indirect effects of climate change on insect herbivores: Auchenorrhyncha (Homoptera) 45–52

JOHN E. LOSEY and ROBERT F. DENNO
The escape response of pea aphids to foliar-foraging predators: factors affecting dropping behaviour 53–61

HIROAKI SATO
Payoffs of the two alternative nesting tactics in the African dung beetle, *Scarabaeus catenatus* 62–67

HEATHER HORAN STROHMEYER, NANCY E. STAMP, CHRISTINE M. JARZOMSKI and M. DEANE BOWERS
Prey species and prey diet affect growth of invertebrate predators 68–79

TOOMAS TAMMARU
Determination of adult size in a folivorous moth: constraints at instar level? 80–89

RICHARD J. TOFT and JOANNA S. REES
Reducing predation of orb-web spiders by controlling common wasps (*Vespula vulgaris*) in a New Zealand beech forest 90–95

MARK R. WEBB and ANDREW S. PULLIN
Effects of submergence by winter floods on diapausing caterpillars of a wetland butterfly, *Lycaena dispar batavus* 96–99

New Perspectives

KENNETH WILSON and ANDREW F. REESON
Density-dependent prophylaxis: evidence from Lepidoptera–baculovirus interactions? 100–101

VOLUME 23, NUMBER 2, MAY 1998
Published 11 May 1998

JOSÉ A. ANDRÉS and ADOLFO CORDERO
Effects of water mites on the damselfly *Ceriagrion tenellum* 103–109

TRACEY A. BJORKSTEN and ARY A. HOFFMANN
Persistence of experience effects in the parasitoid *Trichogramma* nr. *brassicae* 110–117

MICHAEL BOOTS
Cannibalism and the stage-dependent transmission of a viral pathogen of the Indian meal moth, *Plodia interpunctella* 118–122

C. A. DEDRYVER, J. F. LE GALLIC, J. P. GAUTHIER and J. C. SIMON
Life cycle of the cereal aphid *Sitobion avenae* F.: polymorphism and comparison of life history traits associated with sexuality 123–132

IRENE E. M. EIJS, JACINTHA ELLERS and GERT-JAN VAN DUINEN
Feeding strategies in drosophilid parasitoids: the impact of natural food resources on energy reserves in females 133–138

© 1998 Blackwell Science Ltd

THEODORE A. EVANS, MICHAEL LENZ and PATRICK V. GLEESON
Testing assumptions of mark–recapture protocols for estimating population size using Australian mound-building, subterranean termites 139–159

ER-NING HAN and ERIC BAUCE
Timing of diapause initiation, metabolic changes and overwintering survival of the spruce budworm, *Choristoneura fumiferana* 160–167

MARK D. HUNTER
Interactions between *Operophtera brumata* and *Tortrix viridana* on oak: new evidence from time-series analysis 168–173

ANTHONY JOERN and SPENCER T. BEHMER
Impact of diet quality on demographic attributes in adult grasshoppers and the nitrogen limitation hypothesis 174–184

KARI J. KARHU
Effects of ant exclusion during outbreaks of a defoliator and a sap-sucker on birch 185–194

JOSEF K. MÜLLER, ANNE-KATRIN EGGERT and SCOTT K. SAKALUK
Carcass maintenance and biparental brood care in burying beetles: are males redundant? 195–200

M. J. STEINBAUER, A. R. CLARKE and J. L. MADDEN
Oviposition preference of a *Eucalyptus* herbivore and the importance of leaf age on interspecific host choice 201–206

S. A. WEST, S. G. COMPTON, S. L. VINCENT, E. A. HERRE and J. M. COOK
Virginity in haplodiploid populations: a comparison of estimation methods 207–210

BOAZ YUVAL, ROY KASPI, SHLOMIT SHLOUSH and MEIRAV S. WARBURG
Nutritional reserves regulate male participation in Mediterranean fruit fly leks 211–215

Critical Appraisal

MARK D. HUNTER and PETER W. PRICE
Cycles in insect populations: delayed density dependence or exogenous driving variables? 216–222

New Perspectives

M. D. E. FELLOWES
Do non-social insects get the (kin) recognition they deserve? 223–227

VOLUME 23, NUMBER 3, AUGUST 1998
Published 22 July 1998

SHIN-ICHI AKIMOTO
Heterogeneous selective pressures on egg-hatching time and the maintenance of its genetic variance in a *Tetraneura* gall-forming aphid 229–237

CATHERINE E. BACH
Interactive effects of herbivory and sand burial on growth of a tropical dune plant, *Ipomoea pes-caprae* 238–245

LEON BLAUSTEIN
Influence of the predatory backswimmer, *Notonecta maculata*, on invertebrate community structure 246–252

P. DENNIS, M. R. YOUNG and I. J. GORDON
Distribution and abundance of small insects and arachnids in relation to structural heterogeneity of grazed, indigenous grasslands 253–264

M. J. VAN DIJKEN and J. J. M. VAN ALPHEN
The ecological significance of differences in host detection behaviour in coexisting parasitoid species 265–270

MARK DUBBERT, TEJA TSCHARNTKE and STEFAN VIDAL
Stem-boring insects of fragmented *Calamagrostis* habitats: herbivore–parasitoid community structure and the unpredictability of grass shoot abundance 271–280

M. D. E. FELLOWES, P. MASNATTA, A. R. KRAAIJEVELD and H. C. J. GODFRAY
Pupal parasitoid attack influences the relative fitness of *Drosophila* that have encapsulated larval parasitoids 281–284

KONRAD FIEDLER
Diet breadth and host plant diversity of tropical- vs. temperate-zone herbivores: South-East Asian and West Palaearctic butterflies as a case study 285–297

ANNEMARIE KROON and RENÉ L. VEENENDAAL
Trade-off between diapause and other life-history traits in the spider mite *Tetranychus urticae* 298–304

V. G. NEALIS
Population dynamics of the white pine weevil, *Pissodes strobi*, infesting jack pine, *Pinus banksiana*, in Ontario, Canada 305–313

PAUL J. ODE, MICHAEL F. ANTOLIN and MICHAEL R. STRAND
Differential dispersal and female-biased sex allocation in a parasitic wasp 314–318

LIORA SHALTIEL and YORAM AYAL
The use of kairomones for foraging decisions by an aphid parasitoid in small host aggregations 319–329

ERHARD STROHM and K. EDUARD LINSENMAIR
Temperature dependence of provisioning behaviour and investment allocation in the European beewolf *Philanthus triangulum* F. 330–339

Critical Appraisal

HOWARD V. CORNELL, BRADFORD A. HAWKINS and MICHAEL E. HOCHBERG
Towards an empirically-based theory of herbivore demography 340–349

New Perspectives

GREGORY D. D. HURST and GILEAN A. T. MCVEAN
Parasitic male-killing bacteria and the evolution of clutch size 350–353

Book Review 354

VOLUME 23, NUMBER 4, NOVEMBER 1998
Published 27 October 1998

TRACEY A. BJORKSTEN and ARY A. HOFFMANN
Plant cues influence searching behaviour and parasitism in the egg parasitoid *Trichogramma* nr. *brassicae* 355–362

J. P. CUNNINGHAM, S. A. WEST and D. J. WRIGHT
Learning in the nectar foraging behaviour of *Helicoverpa armigera* 363–369

TETSUO HARADA
To fly or not to fly: response of water striders to drying out of habitat 370–376

K. A. HAYSOM and J. C. COULSON
The Lepidoptera fauna associated with *Calluna vulgaris*: effects of plant architecture on abundance and diversity 377–385

GRAHAM W. HOPKINS, JONATHAN I. THACKER and ANTHONY F. G. DIXON
Limits to the abundance of rare species: an experimental test with a tree aphid 386–390

DEV KARAN and RAVI PARKASH
Desiccation tolerance and starvation resistance exhibit opposite latitudinal clines in Indian geographical populations of *Drosophila kikkawai* 391–396

JOEL D. MCMILLIN and MICHAEL R. WAGNER
Influence of host plant vs. natural enemies on the spatial distribution of a pine sawfly, *Neodiprion autumnalis* 397–408

LLOYD W. MORRISON and LAWRENCE E. GILBERT
Parasitoid–host relationships when host size varies: the case of *Pseudacteon* flies and *Solenopsis* fire ants 409–416

NANCY A. PETERSON and ARNE C. NILSSEN
Late autumn eclosion in the winter moth *Operophtera brumata*: compromise of selective forces in life-cycle timing 417–426

SIMON G. POTTS and PAT WILLMER
Compact housing in built-up areas: spatial patterning of nests in aggregations of a ground-nesting bee 427–432

JOHN D. REEVE, DOUGLAS J. RHODES and PETER TURCHIN
Scramble competition in the southern pine beetle, *Dendroctonus frontalis* 433–443

TOM D. SCHULTZ
The utilization of patchy thermal microhabitats by the ectothermic insect predator, *Cicindela sexguttata* 444–450

JOHANNES L. M. STEIDLE
Learning pays off: influence of experience on host finding and parasitism in *Lariophagus distinguendus* 451–456

J. A. THOMAS and G. W. ELMES
Higher productivity at the cost of increased host-specificity when *Maculinea* butterfly larvae exploit ant colonies through trophallaxis rather than by predation 457–464

HANS VAN DYCK, ERIK MATTHYSEN and CHRISTER WIKLUND
Phenotypic variation in adult morphology and pupal colour within and among families of the speckled wood butterfly *Pararge aegeria* 465–472

Short Communications

PHILIP W. BATEMAN
Mate preference for novel partners in the cricket *Gryllus bimaculatus* 473–475

S. L. SOPOW and D. T. QUIRING
Body size of spruce-galling adelgids is positively related to realized fecundity in nature 476–479

REBECCA TIMMS
Size-independent effects of larval host on adult fitness in *Callosobruchus maculatus* 480–483

New Perspectives

DIANE W. DAVIDSON
Resource discovery versus resource domination in ants: a functional mechanism for breaking the trade-off 484–490

KATIA T. RIBEIRO, JOÃO A. MADEIRA and RICARDO F. MONTEIRO
Does flooding favour galling insects? 491–494

Book Review 495–496
